

CABLE PROTECTOR - MANUAL INSTALLATION KIT

WARNING

Cancer and Reproductive Harm: www.p65warnings.ca.gov

KEY FEATURES

- ✓ Calibrated for Slingco Cable Protectors
- ✓ Able to be used for installation of most stamped cable protectors in the market

Slingco's line of Cable Protectors provide a safe, quick and efficient way of conveying and securing downhole cables

into well-bores. They are ideal for the protection of any size ESP cables, control lines, umbilical cables and encapsulated bundles in well-bores.

Eliminating compression-induced damage to downhole cables, its slip and rotation resistant design is streamlined to help prevent hang-ups downhole. The tapered pins that lock the protectors to the conduit are essential to the protection of vital cables.

Slingco's Cable Protector Installation Tool Kits allow you to safely and efficiently install Slingco protectors.

Tool kits are also available in [hydraulic configurations](#).

Description	Slingco Part No.
Manual Installation Tool Kit	ZCP4428

Manual Installation Tool Punch	1
Manual Installation Hammer	1

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-10%. Please contact us if you have any questions.

Range dimension overlaps

If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
