- ✓ Sealed roller bearing and 20mm shaft
- ✓ Galvanized finish
- ✓ Weight : 7Kg

The diablo is machined with a 107mm radius giving a maximum capacity of 214mm diameter.

Slingco Part No.	Base Footprint (mm)	Base Footprint (in)	Height (mm)	Height (in)
ZGP8268	300 x 200	11.81 x 7.87	155	6.1

Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/-10%. Please contact us if you have any questions.

Range dimension overlaps

If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.
