

# CRIMPER DIE SETS

## **WARNING**

Cancer and Reproductive Harm: [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov)

## KEY FEATURES

- ✓ Easy Burndy or Kearney cross reference
- ✓ Fit D3 groove or Kearney Seat
- ✓ W-Dies for 4-6 Ton tools
- ✓ O-Dies for 4-6 Ton tools
- ✓ WH2/WH3 for 12 Ton tools

Dies for 4 - 6 ton or 12 ton crimpers.

"W" style die inserts for installing taps, splices, and terminal connectors. The "W" die inserts lock securely & easily into place with the positive lock, springloaded die buttons. Fits 'D3' groove.

Slingco offers D3 groove W-Dies as well as Kearney type O-Dies.

12 T dies available. Equivalent to Kearney WH-2 & WH-3 dies.

## Dimensions

The figures shown are indicative only. Fully dimensioned data-sheets are available on request. Nominal figures/actuals are as per data-sheet with tolerances of +/- 10%. Please contact us if you have any questions.

## Range dimension overlaps

If the cable, rope or hose you have lies where ranges overlap, e.g. 1" when sizing is 0.5-1.00 and 1.00-1.5 we recommend that you select your cable grip to achieve break load first. If tensile strengths are equal or both adequate, choose the smaller of the two. Please contact us if you have any questions.

This information is for marketing purposes only. The details contained herein is presented as general information and no representation or warranty is expressly or impliedly given as to its accuracy, completeness or correctness. It does not constitute part of a legal offer or contract. For technical specifications, please contact Slingco Limited.
